This course follows the recommendations of the Royal College of Pre-hospital care in Edinburgh. It includes all the topics required for a First Aid at Work qualification as well.

It is designed for anyone who wishes or needs to learn additional skills due to the environment they work in or where there is a longer distance to the nearest emergency department.

The knowledge and skills taught as part of the course are designed for the first person on scene to intervene within a scope of practice to preserve life and prevent deterioration of the patient and start the recovery process.
